25	How much would you recommend this institution to other students	0.71	3.83	14.23	36.02	45.22

Action Taken Report on the Evaluation of Institution by Students 2013-14

The survey report of Institution evaluation by students was submitted to the IQAC as well as to the Academic Council. Almost 80% of the students have the opinion that the general academic atmosphere of the college was good or excellent. More than 80 percent of the students are happy with the teacher guidance in academic activities. The college lays special emphasis on the timely conduct and evaluation of internal exams which has reflected in the survey. About 20% students felt that the student participation in the class should be improved. The IQAC and council felt that this can be achieved by conducting more class seminars, group discussions and debates. Majority of the students felt that the library facilities are good, whereas about 2% are of the opinion that the library facilities need to be improved. To improve the facilities of the library, the college council has decided to purchase more books, magazines and to subscribe online journals. Majority felt that the laboratory facilities are good. More than 80% students are happy with the faculty involvement in curricular activities including quality of teaching materials and ICT enabled teaching. Some students have expressed dissatisfaction over the functioning of the office. The council concluded that this is due to the insufficient number of administrative staff in the office and has decided to write to the management regarding this issue. Though about 80% of the students expressed confidence in securing admission for higher education, the

council felt that every year less than 30% students enroll for PG programs. This was mainly due to the reluctance of students to appear for PG entrance examinations. Hence it was decided to inform the concerned tutors to enlighten students more effectively about the need for appearing for these examinations. Since several students also expressed the need for more organizing seminars, it was recommended to the council that each department should organize more seminars in future. More than 85% of the students found that the overall performance of the institution is good and that they have no reservations in recommending our institution to their friends/relatives.
