7	Overall, the course content was excellent	0.61	3.63	13.49	40.70	41.56

Action Taken Report on Course Evaluation by Students 2014-15

While more than 85% students felt that the course is good enough to equip themselves for their future endeavors, almost 12% felt otherwise. This information has already been conveyed to the faculty members who are members of the Board of studies, so that they can incorporate adequate changes during the subsequent meetings. When 80% felt happy with the teaching resources, almost 23% felt it as inadequate. The council has been informed about this matter and accordingly, the faculty members and library have been informed to increase the availability of the teaching materials like books, Power Point presentations, etc. Almost 25% also felt that there should be more practical oriented teaching. This matter was also conveyed to the Board of Studies of the University which is the apex body in decision makings of this sort. To address the issue of faculty interaction, the council advised the various departments to conduct additional PTA meetings for the weak students.
